## Education

### M.S. in Computer Science

University of Maryland, Baltimore County

May 2018

### B.E. in I.T. (GPA: 3.4/4.0)

Marathwada Mitra Mandal's College of Engineering, University of Pune, India

May 2014

## Technology

- Languages - Ruby, Python, Javascript, Java, C, C++.
- Web Development - Ruby on Rails, Django, JQuery, AngularJS, BackboneJS, HTML & CSS, Bootstrap.
- Databases - MongoDB, Redis, MySQL, Oracle.
- Softwares - Git, GitHub, Eclipse, Jira, Zendesk, MS Office Suite (Access, Word, Excel, PowerPoint).

## Work Experience

### Senior Software Engineer at Amura Marketing Technologies

June 2014 - June 2016

Being a startup, worked with a team of 6-10 people. Products worked on -

- **sell.do** - Handled microservices such as cloud telephony, bulk email and sms manager, automated reporting tools, worked on backboneJS to build a dynamic UI.
- **advertise.sell.do** - Designed a system in Ruby to create pre-aggregated metrics from raw data of marketing campaigns and store them in dynamic mongoDB collections.
- **IRFS** (a real estate portal) - Implemented the core business logic in Ruby and designed the UI using HTML, backboneJS & marionetteJS.
- **ad creative automation** - Designed a tool for creating ad banners for online marketing campaigns using HTML5 canvas & fabricJS. Also handled image compression & image processing.
- **pages.sell.do** - Designed a simple & fast web based tool to create responsive landing pages in an event oriented system using Rails and backboneJS.

## Academic Projects

### Social Integration Platform

May 2014

- Designed a web based platform which Integrates feed from social networks such as Facebook, Twitter, LinkedIn and does sentiment analysis on the feed, created using Ruby on Rails, MySQL, HTML, CSS & JS.

### Quiz Game

May 2013

- A web based app created using Java (Servelets & JSP), HTML, and MySQL for college competitions.

### Student Records Management System

Dec 2013

- A standalone application in *Visual Basic 6.0* & *Oracle* for managing student records.

## Seminars

Motion Sense Gaming in XBOX kinect

Nov 2012

Web Sockets with optimal concurrency models in Ruby on Rails

Dec 2015

## Blogs
